

**REMARKS**

Claims 1-22 are all the claims pending in the application.

**I. Interview Summary**

The Applicant thanks the Examiner for the courtesies extended during the telephonic interview of January 8, 2008, and submits herein a summary of the interview in accordance with the requirements of 37 C.F.R. § 1.133.

A. Exhibits Presented: None

B. Claims Discussed: Claim 1

C. Specific Prior Art Discussed: Malik (US Pub. No. 2003/0065768 A1) and Sagi (US Pat. No. 6,865,384)

D. Amendments Discussed: None

E. Principal Arguments

The Applicant presented arguments that neither Malik nor Sagi disclose the claimed invention since the invention of claim 1 describes presenting capability information to the guest rather than the subscriber. In contrast, Malik and Sagi are subscriber-oriented systems that present information to a subscriber rather than a guest. The Applicant further referred to the Specification at paragraphs [0010] and [0011] to further point out how the claimed invention is directed to providing a guest caller with capability information.

F. Other Matters Discussed: None

G. Outcome of Interview

The Examiner agreed that neither Malik nor Sagi can be combined to make the invention of claim 1 obvious, specifically since the claimed invention is directed to presenting capability information to a guest instead of a subscriber.

The Examiner indicated that the Final Office Action would be withdrawn and a new search would be conducted to look for additional references.

## II. Conclusion

In view of the above, reconsideration and allowance of this application are now believed to be in order, and such actions are hereby solicited. If any points remain in issue which the Examiner feels may be best resolved through a personal or telephone interview, the Examiner is kindly requested to contact the undersigned at the telephone number listed below.
